# Grilles, Bars and Cages for Your Security

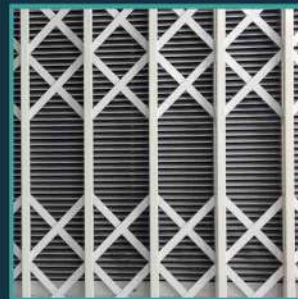

## Contents

- CX Security Grilles

- Extendor Security Grilles

- Certified Cages and Security (Anti-Burglar) Bars

## Partnering with Cross-Guard for Your Security Needs

Cross-Guard supplies high-security grilles and bars for proven window and door security alongside a range of certified cages. Grilles are a much better alternative to shutters as they involve less maintenance, they're easier to operate and are more aesthetically pleasing. They also allow increased light and ventilation, facilitating window shopping. Benefits of working with Cross-Guard include:

- High-quality products built to last
- Quick quotes and fast lead times
- Dedicated expert advice from our friendly team
- Wide range of products, including certified options
- Free delivery on bulk orders within the UK (exclusions apply, ask for full details)

## Standard Security Grilles

- ✔ Sleek design
- ✔ Smooth operation
- ✔ Easy installation
- ✔ Wide range of colours
- ✔ Custom-made
- ✔ Stacks back discretely
- ✔ 2-year manufacturer's guarantee
- ✔ Manual operation, maintenance-free

### CX2: Recommended for You

Accredited to LPS 1175 SR1 by the LPCB and manufactured to Secured by Design standards, these retractable security grilles are a popular choice within most domestic and commercial markets requiring moderate security. They are manufactured and certified to ISO 9001.

Certificate 1596a  
LPS 1175: Issue 5

Best-selling product

**CX2**

### CX1: Stay Secure

Suitable for domestic and commercial properties where LPCB accreditation is not required. Contains security features such as a lockable slam post for enhanced protection against theft—designed with appearance and your safety in mind.

## Premium Security Grilles

T: +44 (0)808 301 9807

E: [grillesales@cross-guard.com](mailto:grillesales@cross-guard.com)

### High Strength

#### Elite: Police Preferred Specification

Suitable for most moderate security requirements, these security grilles are often installed on upper floors of buildings to reduce overall cost of installation, while more accessible windows are secured by Vulcan and Eclipse to maintain higher levels of security.

- Stainless steel dual shoot bolt locking into head rail and track
- Approved by the Association of British Insurers
- Proven resistance to hacksaws and drills

### Increased Strength

#### Vulcan: LPS 1175 SR2 Rated

Provides exceptional levels of security and is one of the strongest grilles we offer. Aside from the Eclipse, this is the only security grille to provide proven resistance against bolt cutters. Manufactured to Secured by Design standards, Police Preferred Specification.

- Two-point bespoke high-security locking
- Approved by the Association of British Insurers

# Extendor<sup>®</sup>

When only the strongest security grille will do

### Unrivalled Strength

#### Eclipse: the Only Grille to be LPS 1175 SR3 Rated

The strongest and most robust grille on the market for anti-theft and anti-terror. Police Preferred Specification and approved for use by the UK government.

- Two-point bespoke high-security locking
- Meets standards for the protection of vulnerable and hazardous materials within the Critical National Infrastructure
- Approved by the Association of British Insurers

## Extendor Security Cages

Extendor grilles can also be manufactured into certified security cages to protect valuables in a restricted or shared area. The design allows for increased security if you'd like to install CCTV or implement patrol guarding. No additional climate control or fire suppression systems are necessary as the cages permit free airflow.

Available in Elite, Vulcan (certified to LPS 1175 SR2) and Eclipse (certified to LPS 1175 SR3) models.

- Provides ultimate peace of mind and protection in high-risk areas
- Available in a broad size range
- Tailored to suit each application and location
- Certified usage for raised access floors
- Approved by the Association of British Insurers

## Extendor: When Only the Highest Security Will Do

Extendor Vulcan

Extendor Eclipse

As the cages are constructed from Extendor grilles, they also maintain the same security ratings from the LPCB (aside from the Elite) and they're all manufactured to Secured by Design standards and bomb-blast tested.

## Security (Anti-Burglar) Bars

These anti-burglar bars secure windows and present an effective visual deterrent/barrier against theft. The 20mm solid steel jail bars are designed to rotate, increasing resistance against weapons such as hacksaws. To reduce risk of rust, the anti-burglar bar sets are manufactured with no welds.

### Cross-Guard Colour Chart

Below are popular product colours. Please note all grilles are quoted in Traffic White as standard. If you require any of our other colours below, or a completely different colour, additional charges will apply.

Light Ivory  
(RAL 1015)
